

Devoted Health

www.illumicare.com/DevotedHealth

Actionable risk and HEDIS gap information can now be seen right in your EMR workflow, without user log-in or patient look up. The Smart Ribbon® is an EMR-agnostic tool that requires no EMR integration. It can be installed locally in just minutes and can appear on any machine and for any users that the medical practice desires, all at no cost to the practice.

Gaps Jane Doe

- Vascular Disease with Claudication
- Morbid Obesity
- Inflammatory Bowel Disease

DevotedHealth

QUICKLY ENSURE THAT YOUR PATIENTS MEET DEVOTED HEALTH QUALITY MEASURES AND RISK DOCUMENTATION

Smart Ribbon is a free tool that automatically checks the status of a patient you're viewing in the EMR against the Devoted Health documented quality and risk measures.

For more information, please email: raf@devoted.com

"It's gotten great feedback and we're very excited. It is so easy to use, which is fantastic."

-Rhonda Hamilton, COO of Silver State ACO
